Jayne--

I haven't had a chance to look through the draft TMDL guidance yet. That's on my list for next week since we'll be out of pocket as they reconfigure our cubes. Depending on what feedback NOAA/EPA have on that doc, it may be good for the fed partners to touch base quickly before we talk with the state just to make sure we're all on the same page and can present a united front to OR.

Also, don't forget that Oct. 10th is a Fed. holiday.
